Mānoa Institutional Outcomes for Undergraduate Students

University of Hawai‘i at Manoa students prepare for 21st century challenges and opportunities in Hawai‘i and the world beyond by integrating knowledge, skills and values:

**World of Ideas Breadth and Depth of Knowledge**
Students develop their understanding of the natural world and human cultures with particular emphasis on Hawaii, Asia, and the Pacific through
- general studies in the physical and social sciences, arts, and humanities; and
- focused study and research in their major.

**Intellectual and Practical Skills**
Students develop their abilities to apply their understanding through

- **Independent inquiry, analysis and research**: students are able to apply questioning, reasoning, critical and creative thinking and problem solving skills appropriately and methodically.
- **Teamwork**: Students are able to work together cooperatively and collaboratively within the context of ohana.
- **Communication**: Students are able to convey meaning using a variety of methods including written, oral and non-verbal communication.
- **Multiple Literacies**: Students are able to comprehend and utilize the written word, numbers and technology.

**Personal and Social Responsibility**
Students demonstrate personal and social responsibility by:
- committing to personal excellence and integrity in scholarship throughout their lives;
- embracing the worth and dignity of all people and respecting the physical and natural world;
- promoting justice and improvement of the human condition.

- Guided by the principle of ethical inquiry – that students should learn multiple ways of questioning and interpreting phenomena/events to become socially responsible
