1 School of Nursing and Dental Hygiene, 2 Daniel K. Inouye College of Pharmacy, 3 Myron B. Thomspon School of Social Work, 4 Office of Public Health Studies, 5 John A. Burns School of Medicine

Interprofessional education is defined “when students from two or more professions learn about, from and with each other to enable effective collaboration and improve health outcomes. (WHO, 2010)

Interprofessional collaborative practice is the key to:
• Safe
• High-quality
• Accessible
• Patient-centered care

The workgroup was created to help prepare students work collaboratively in complex healthcare settings. This is accomplished by providing opportunity to collaborate with students across health care disciplines through set learning experiences.
