ILO Meeting

Agenda:

1. Update on brochure so we can have them printed.
2. Monica reported on the results of the assessment process.
   a. 89/96 programs responded. Many programs show they address to
      “think critically and creatively”
   b. Reports alignment of ILO to program SLO differently.
   c. Next semester we will need start working with the assessment
      coordinators. Perhaps do additional assessment workshops.
3. There is some mismatch between the SLOs and the ILOs which could be an
   issue of miscommunication of what is going on in the SLOs. How much
   should be present for a department to say that they meet an ILO? How much
   exposure to a specific ILO does a student need to “value” something?
4. Next step – need to either incorporate the wording of the ILOs into the SLOs
   or take the ILOs and add new ones that address some of the issues.
