

Table 1.2. Classifications of opinion, hypothesis, and theory statements.

O, H, or T	Statement
	It is better to drink chocolate milk than a sports drink after a workout.
	Explanation:
	If the water in a tidepool is too warm, urchins will move until they are in cooler water.
	Explanation:
	The earth's crust is not fixed, but is composed of a set of plates that move slowly due to the fluid motion of the mantle beneath, in a process known a plate tectonics.
	Explanation:
	There is no life on other planets.
	Explanation:
